

Advertising Germany

Road shows and tennis shows

in German tennis clubs together with German travel agents, hotels, airlines, tourist boards, tourist magazines and tour operators.

ever-court, the ever-court Star-Coaches and the ever-court trainer network have a lot of experience with this type of promotion. Concepts always made exactly with and for the companies.

Promotion in shopping centre in Germany or in countries event weeks are happen are one of the best advertising you can make for products and events.

A mini-tennis-center-court with softballs, children racquets, star-coach and an ever-court organizer make it interesting for children, parents, guests and press.

It doesn't have to be KIA motors. It can be other products too. The costs are less as you think.
