

For associations only

ever-court, a very useful network for associations.

Our Star-Coaches and our trainer teams can help fulfil the potential of talented juniors and tournament players in a lot of countries.

In Europe from March to October there are many tournaments for juniors of all ages. There are ITF Satellite tournaments, WTA and ATP tournaments. The ever-court Star-Coaches and their trainer teams can train young players at a training centre 30 minutes from the Frankfurt International Airport, directly in the middle of Europe and accompany them to tournaments. The players can fly or drive with their “Team” to tournaments, come back to “The Base”, practice, than go on to the next tournaments. Ever-court will organize hotels, transportation and coaching in cooperation with the association and their coaching staffs.

Our additional contacts and accesses to high-performance tennis centre in Växjö, Sweden, with Carl-Axel Hageskog, to the German Tennis Association (DTB) in Hamburg and Munich insures players a competent and competitive future.

This extended and extensive combination of training and coaching through so many world-class players, former world-class players and world-class coaches has never before been available to anyone, has never even existed – anywhere in the world.

Wimbledon Semi Finalist and Australian ex-Davis-Cup player Rod Frawley can help with his experience. And Peter McNamara too. Or Claudia Kohde-Kilsch: She knows what girls and ladies need to be successful on the Tour.
